DETAILED ACTION

This Office action is in response to applicant's amendment filed on 28 July 2005.

Allowable Subject Matter

1. Claims 11, 13-15, 17-28 are allowed.
2. The following is an examiner's statement of reasons for allowance:
 - Claims 11, 13-15, 17-22 are allowed because the prior art of record does not teach or suggest, in combination with the other claim limitations, an integrated circuit with a dielectric layer that includes a non-barrier dielectric material capable of being changed into a barrier dielectric material and having an opening provided therein, wherein the dielectric layer around the opening is of the barrier dielectric material which separates the non-barrier dielectric material from the opening, and wherein the non-barrier dielectric material is SiCOH; and
 - Claims 23-28 are allowed because the prior art of record does not teach or suggest, in combination with the other claim limitations, an integrated circuit with a dielectric layer that includes a non-barrier dielectric material capable of being

changed into a barrier dielectric material and having an opening provided therein, wherein the dielectric layer around the opening is of the barrier dielectric material which separates the non-barrier dielectric material from the opening, and further combined with a gettering material of an atomic layer thickness on the barrier dielectric material.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
